

APPENDIX 8A : REGIONALLY AND NATIONALLY RARE OR THREATENED SPECIES FOUND IN THE GISBORNE DISTRICT	1
BIRDS	1
PLANTS	2
MAMMALS.....	3
FRESHWATER FISH.....	3
INVERTEBRATES	3
AMPHIBIANS.....	3
KEY TO THREAT STATUS	3

Soft Copy Plan Users please note

Your printer may not recognise some of the symbols in the last table of this Appendix, even if they show correctly on your screen. Please check carefully against a counter copy, and contact Leanne Williams if you need a hard copy.

**APPENDIX 8A : REGIONALLY AND NATIONALLY RARE OR THREATENED
SPECIES FOUND IN THE GISBORNE DISTRICT**

Common Name	Taxonomic Name	Threat Status	
Birds			
NZ Shore Plover	<i>Thinornis novaeseelandiae</i>	Acutely Threatened	Nationally Critical
Blue Duck	<i>Hymenolaimus malachrychos</i>	Acutely Threatened	Nationally Endangered
Kokako	<i>Calaeas cinerea wilsoni</i>	Acutely Threatened	Nationally Endangered
NI Kaka	<i>Nestor meridionalis septentrionalis</i>	Acutely Threatened	Nationally Endangered
NI Weka	<i>Gallirallus australis greyi</i>	Acutely Threatened	Nationally Endangered
Wrybill	<i>Anarhynchus frontalis</i>	Acutely Threatened	Nationally Vulnerable
Banded Dotterel	<i>Charadrius bicinctus</i>	Chronically Threatened	Gradual Decline
Eastern NZ Falcon	<i>Falco novaeseelandiae</i>	Chronically Threatened	Gradual Decline
Kereru	<i>Hemiphaga novaeseelandiae</i>	Chronically Threatened	Gradual Decline
Longtail Cuckoo	<i>Eudyna mystaitensis</i>	Chronically Threatened	Gradual Decline
Northern Little Blue Penguin	<i>Eudyptula minor iredalei</i>	Chronically Threatened	Gradual Decline
White Fronted Tern	<i>Sterna striata</i>	Chronically Threatened	Gradual Decline
Black-fronted Tern	<i>Sterna albostrata</i>	Chronically Threatened	Gradual Decline
Northern Brown Kiwi	<i>Apteryx "North Island"</i>	Chronically Threatened	Gradual Decline
Yellow-crowned Kakariki	<i>Cyanorhamphus auriceps</i>	Chronically Threatened	Gradual Decline
Australasian Gannet	<i>Morus serrator</i>	At Risk	Range Restricted
Banded Rail	<i>Gallirallus philippensis assimilis</i>	At Risk	Sparse
Black Shag	<i>Phalacrocorax carbo novaehollandiae</i>	At Risk	Sparse
Fernbird	<i>Bowdleria punctata vealeae</i>	At Risk	Sparse
Marsh Crane	<i>Porzana pusilla affinis</i>	At Risk	Sparse
Northern NZ Dotterel	<i>Charadrius obscurus "northern"</i>	At Risk	Sparse
NZ Dabchick	<i>Poliocephalus rufpectus</i>	At Risk	Sparse
North Island Robin	<i>Petroica australis longipes</i>	Not Nationally Threatened	Regionally Rare

Plants			
Swamp Musk	<i>Mazus NZ impolitus hirtus</i>	Acutely Threatened	Nationally Critical
Forget-me-not	<i>Myosotis petiolata s.s.</i>	Acutely Threatened	Nationally Critical
Coastal Cress	<i>Rorippa divaricata</i>	Acutely Threatened	Nationally Endangered
Giant Broom	<i>Carmicaelia williamsii</i>	Acutely Threatened	Nationally Endangered
Heart Leaved Kohuhu	<i>Pittosporum obcordatum</i>	Acutely Threatened	Nationally Endangered
Kakabeak	<i>Clianthus maximus</i>	Acutely Threatened	Nationally Endangered
Dactylanthus	<i>Dactylanthus taylorii</i>	Chronically Threatened	Gradual Decline
Green Mistletoe	<i>Tupeia antarctica</i>	Chronically Threatened	Gradual Decline
Pingao	<i>Desmoschoenus spiralis</i>	Chronically Threatened	Gradual Decline
Raukumara	<i>Brachyglottis perdicoides</i>	Chronically Threatened	Gradual Decline
Red Mistletoe	<i>Peraxilla Tetrapetala</i>	Chronically Threatened	Gradual Decline
Scarlet Mistletoe	<i>Peraxilla Colensoi</i>	Chronically Threatened	Gradual Decline
	<i>Teuchridium parrifolium</i>	Chronically Threatened	Gradual Decline
	<i>Jovellana sinclarii</i>	Chronically Threatened	Gradual Decline
Mida	<i>Mida salicifolia</i>	Chronically Threatened	Gradual Decline
Raukawa	<i>Raukawa edgerleyi</i> (<i>Pseudopanax?</i>)	Chronically Threatened	Gradual Decline
Musk	<i>Mazus NZ impolitus</i>	Chronically Threatened	Serious Decline
Shore Plantain	<i>Plantago spathulata picta</i>	At Risk	Range Restricted
Hikurangi Tutu	<i>Coriaria pottsiana</i>	At Risk	Range Restricted
Mistletoe	<i>Korthalsella salicornioides</i>	At Risk	Sparse
	<i>Peperomia tetraphylla</i>	At Risk	Sparse

Mammals			
NI Long Tailed Bat	<i>Chalinolobus tuberculata</i>	Chronically Threatened	Serious Decline
Central Short Tailed Bat	<i>Mystacina tuberculata thycobia</i>	At Risk	Range Restricted

Freshwater Fish			
Giant Kokopu	<i>Galaxias argentens</i>	Chronically Threatened	Gradual Decline
Longfinned Eel	<i>Anguilla dieffenbachii</i>	Chronically Threatened	Gradual Decline
Short Jawed Kokopu	<i>Galaxias postvectus</i>	Chronically Threatened	Gradual Decline

Invertebrates			
Black Katipo Spider	<i>Latrodectus atritus</i>	Chronically Threatened	Serious Decline

Amphibians			
Hochstettors Frog	<i>Leiopelma hochstetteri</i>	At Risk	Sparse

KEY TO THREAT STATUS

Critical	<p><u>Status</u> = ≤250 mature individuals and/or <0.1km² and/or ≤2 sub-populations plus ≤25 mature individuals in largest sub-population.</p> <p><u>Trend</u> = ≤90% decline in total population in last 50 years and/or ≤90% decline in habitat in last 50 years and/or ≤90% decline in total population in the next 10 years.</p>
Endangered	<p><u>Status</u> = ≤1,000 mature individuals and/or <1km² and/or ≤5 sub-populations plus ≤100 mature individuals in largest sub-population.</p> <p><u>Trend</u> = ≥60% decline in total population in last 50 years and/or ≥60% decline in habitat in last 50 years and/or ≥ 60% decline in total population in the next 10 years.</p>
Vulnerable	<p><u>Status</u> = ≤2,500 mature individuals and/or <10km² and/or ≤10 sub-populations plus ≤500 mature individuals in largest sub-population.</p> <p><u>Trend</u> = ≥30% decline in total population in last 50 years and/or ≥30% decline in habitat in last 50 years and/or ≥30% decline in total population in the next 10 years.</p>
Susceptible (includes Chronically Threatened, and At Risk)	<p><u>Status</u> = ≤10,000 mature individuals and/or <100km² and/or ≤20 sub-populations plus ≤2,000 mature individuals in largest sub-population.</p> <p><u>Trend</u> = ≥10% decline in total population in last 50 years and/or ≥10% decline in habitat in last 50 years and/or ≥10% decline in total population in the next 10 years.</p>
