Utilities Charges (Water, Wastewater and Stormwater) Fees and Charges

CONNECTION FEE TO THE PUBLIC NETWORK

Water

An ordinary water connection fee is proposed to be \$360.00 inclusive of GST. This is for existing lots prior to and on 31 January 2006. This is for the physical connection from the water main to the boundary.

An extraordinary water connection fee is proposed to be charged at the full cost, of a tendered or quoted price, for the physical connection from the main to the boundary plus a 10% administration fee. This will also be for all subdivision connections after 31 January 2006.

A definition of an ordinary and an extraordinary connection are contained within the Gisborne District Water Bylaw 2008.

Wastewater and Stormwater

Wastewater and stormwater have no connection fees.

Trade Waste Fee

It was proposed to increase the trade waste discharge fee from its current rate of 1.1¢ per cubic metre of wastewater discharged to 30¢ per cubic metre effective from 1 July 2009. This fee is paid by industries whose trade waste flows through the city wastewater system.

Following submissions on the increase Council determined that the change would be phased in over 4 years. The reduction in income from reducing the fee in year 1 would be recovered in years 3 and 4. The effect of this will be fees as follows:

| | |
|------------------|---------------------|
| From 1 July 2009 | 20¢ per cubic meter |
| From 1 July 2010 | 30¢ per cubic meter |
| From 1 July 2011 | 35¢ per cubic meter |

A rate of 30¢ per cubic metre reflects the industry share of the actual annual wastewater system operating costs.

The fee changes place Gisborne District Council wastewater charges in the mid-range of the fees charged by other councils surveyed.

The calculation of fees is based on a formula contained in Schedule 1C of the Gisborne District Trade Waste Bylaw 2008. A factor may be required in the calculation in some cases to allow for a difference in water measured to water discharged into the city wastewater system.

Solid Waste

Council will impose a surcharge of \$10 per tonne on all waste through transfer stations. This is to recover past deficits resulting from the investigation for a district landfill. This will be collected on behalf of Council by our waste contractor.

For transfer stations:
